Almost everyone is familiar with the legendary Zodiac F470 – the signature small craft of the Special Operations community. But, maybe you didn't know it has a big brother – the Zodiac F530. In all aspects, the Zodiac F530 is identical to the F470 except in size. Yet it still folds and stores just like the F470. Bigger is not always better, but for the right situation, the Zodiac F530 is a better choice.

While a mere 2 feet in extra length may not sound like much, it accommodates:

- Stokes Baskets more conveniently
- More SCUBA gear
- Parachute recovery
- More personnel (rescuers and victims)

The Zodiac F530 – for really hairy missions.
